In 1997, while in college Sharma started the website indiasite.net and sold it two years later for \$1 million. In 2005, he started One97 Communications which offered mobile content like news, cricket scores, ringtones, jokes and exam results.

Harald Pousette. Sven Harald Pousette (18 June 1886 – 6 May 1975) was a Swedish diplomat. Pousette was born in Gävle, Sweden and was the son of captain Fredrik Pousette and Valborg (née Bodman). He passed the reserve officer exam in 1907 and graduated with an administrative degree ( kansliexamen ) in Uppsala in 1908 before becoming an attaché at the Ministry for Foreign Affairs the same year.

Moreover, common species are often undervalued despite their role as the primary source of ecosystem services. While most in the community of conservation science stress the importance of sustaining biodiversity, there is debate on how to prioritize genes, species, or ecosystems, which are all components of biodiversity (e.g. Bowen, 1999).

The marriage ended in divorce in 1977. In 1984 he married actress Karen Ingesthron, to whom he remained married for the rest of his life. In his final years, he resided on Roosevelt Island (in New York County).

Rhyl could not reproduce their quadruple heroics in 2004–05. The club finished runners-up in the Welsh Premier League to TNS and also fell to the same team in both the Welsh Cup semi-final and Welsh Premier Cup quarter-final.

Byrd, an independent, since 1970, defeated Zumwalt, a Democrat, 57–38%. At Harvard, Feith had studied under Richard Pipes, who joined the Reagan administration's National Security Council, in 1981, to help carry out a private intelligence project called Team B that Pipes and his students had conceived.

A study of the cedar waxwings showed that the red tips are few or absent until the third year of life for that related species. All adult waxwings have a complete moult annually between August and January.

A disadvantage of using phone connectors for balanced audio connections is that the ground mates last and the socket grounds the plug tip and ring when inserting or disconnecting the plug. This causes bursts of hum, cracks and pops and may stress some outputs as they will be short circuited briefly, or longer if the plug is left half in.

By 1861, 230,000 students were attending public educational institutions in the four provinces (the three Presidencies and North-Western Provinces), of whom 200,000 were in primary schools. Over 5,000 primary schools and 142 secondary schools had been established in these provinces.

Many frilled sharks are found with the tips of their tails missing, probably from predatory attacks by other shark species. Parasites identified from this shark include a tapeworm in the genus *Monorygma*, the fluke *Otodistomum veliporum*, and the nematode *Mooleptus rabuka*.
